¹⁾ Data are produced on the basis of **external merchandise trade methodology** and differs from similar indicators produced by the National bank on the basis of **balance of payments methodology**. According to the balance of payments methodology an adjustment is made for the imports of goods from CIF prices to FOB prices. Excluded are goods for further processing and return of goods. Included are goods purchased by transport organisations abroad.

²⁾ Hereinafter the data for 2010-2012 are for 27 EU member countries, for year 2013 the data provided on 28 countries (including Croatia).
