The statistical data book presents information on tourism development in the Republic of Belarus. There are data on tourist flows, activities of travel agencies and accommodation facilities, development of rural ecotourism.

The statistical data book is published annually, illustrated with charts and diagrams.

The statistical data book has been prepared on the basis of data from state statistical surveys, administrative and other data.

Data are provided taking into account changes in legislation in the field of tourism, rural ecotourism and the activities of individual entrepreneurs as providers of accommodation services.

Data on the number of inbound and outbound tourist trips include the individuals crossing the Belarusian-Russian section of the State border, on the number of domestic tourist trips – taking into account the assessment of unorganised domestic tourist flow.

The information on rural ecotourism is provided according to the data of the Ministry of Taxes and Duties of the Republic of Belarus.

In some cases data for 2023 are preliminary and may be revised in further issues.

In certain cases insignificant discrepancy between the total and the sum of its components is explained by data rounding.

A short glossary of statistical terms is available on the official website of Belstat at <https://www.belstat.gov.by/metodologiya/kratkiy-glossariy-statisticheskikh-terminov/> (in Russian only).

Methodologies for calculation of inbound, outbound and domestic tourist flows are available on the official website of Belstat at https://www.belstat.gov.by/upload-belstat/upload-belstat-word/Methodology/m2_turism.docx, https://www.belstat.gov.by/upload-belstat/upload-belstat-word/Methodology/m3_turism-240118.docx, and https://www.belstat.gov.by/upload-belstat/upload-belstat-word/Methodology/m1_turism_30_11_2018.docx respectively (in Russian only).
