The statistical reference book is an annual publication that provides brief information on the socio-economic situation in the Republic of Belarus.

Selected data for 2019 were revised as compared to those published earlier; in some cases data for 2020 are preliminary and may be revised in further issues.

Population data have been adjusted for the 2019 population census results. When calculating relative indicators, the average annual population adjusted according to the results of the 2019 population census was used.

Data by economic activity are presented in accordance with the national classification of the Republic of Belarus OKRB 005-2011 “Kinds of economic activity” (OKED).

Data in value terms are shown at current prices.

Methodologies of compilation and calculation of indicators (in Russian) are available on the official website of Belstat at [https:// www.belstat.gov.by/metodologiya/metodiki-po-formirovaniyu-i-raschetu-statistichesk/](https://www.belstat.gov.by/metodologiya/metodiki-po-formirovaniyu-i-raschetu-statistichesk/).

Explanation of symbols:
