¹⁾ Data are produced on the basis of **external merchandise trade methodology** and differs from similar indicators produced by the National bank on the basis of **balance of payments methodology**. According to the balance of payments methodology an adjustment is made for the imports of goods from CIF prices to FOB prices. Excluded are goods for further processing and return of goods. Included are goods purchased by transport organizations abroad.

²⁾ Hereinafter the data for 2011-2012 are for 27 EU member countries, since year 2013 – 28 countries (including Croatia).
