The statistical reference book is an annual publication that provides brief information on the socio-economic situation in the Republic of Belarus.

Selected data for 2018 were revised as compared to those published earlier; in some cases data for 2019 are preliminary and may be revised in further issues.

Relative indicators for 2019 that were calculated using the number of population based on the 2019 population census results are not comparable with those for previous periods.

Data by economic activity are presented in accordance with the national classification of the Republic of Belarus OKRB 005-2011 “Kinds of economic activity” (OKED).

Data in value terms are shown at current prices.

Explanation of symbols:

- not applicable
- ... data not available
- 0.0 negligible magnitude

In certain cases a minor discrepancy between the total and the sum of its components can be explained by data rounding.
